The first system of its kind, STEADICAM is a unique and revolutionary camera stabilizing system which has been quietly making film history during the course of the past year, breaking new ground in handheld cinematography.

Fully tested—and proven—in numerous film and video productions, STEADICAM has already made its dramatic impact on the filming of major features such as BOUND FOR GLORY (DP Haskell Wexler), MARATHON MAN (DP Conrad Hall), ROCKY (DP James Crabe), THE HERETIC (DP William Fraker), THE CAR (DP Gerald Hirschfeld), MacARTHUR (DP Mario Tosi) and EQUUS (DP Ossie Morris).

Effectively reducing production costs, STEADICAM releases the motion picture camera from the constraints of dollies and tracks, tight interiors, heavy camera platforms—delivering remarkably steady and jitter-free moving shots of dolly-quality smoothness, permitting new kinds of moving shots previously considered impossible!

STEADICAM greatly enhances the creative latitude of the cinematographer and the director. According to Stanley Kubrick, "It should revolutionize the way films are shot."

STEADICAM

The following critical comments about the film ROCKY deal with some of the key sequences that were shot with STEADICAM:

"... Rocky's training, revealing Stallone's own grueling five-month preparation for the part, is fascinating to watch. Thanks to a newly developed body-held camera, cinematographer James Crabe was able (without impossibly costly tracking platforms) to follow Stallone jogging before dawn through all of Philadelphia, a literal opening up which appropriately symbolizes an opening up of Rocky's world and his chances."

Charles Champlin
L.A. Times CALENDAR
November 28, 1976

"... Not only did that last reel include some of the most wildly exciting fight footage ever put on the screen, but it also provided an emotionally gratifying capstone to a picture that is truly an ode to the human spirit ... And a final word must be said for James Crabe's incredible camera work—not only his stunning views of Philadelphia's historic monuments, but the squalor of the South Philadelphia slums, two breath-taking swoops up the broad steps of the Philadelphia Art Museum, a protracted run past swinging sides of beef in a meat-packing plant, and, of course, the virtuoso photography of the climactic bout ... In many ways, ROCKY is a picture that should make movie history."

Arthur Knight
The Hollywood Reporter
November 5, 1976

Camera Operator Garrett Brown, inventor of the system, is seen using the STEADICAM stabilized camera system to film the dramatic fight sequence in ROCKY. James Crabe was Director of Photography.

The STEADICAM system was developed and is manufactured by Cinema Products Corporation under exclusive world-wide license. Foreign and U.S. patent rights to cover all aspects and applications of the STEADICAM system have been applied for.

Theatre Licences

In cities the annual fee for every theatre licence is $50 where the population is 10,000 or over, and $20 where the population is under 10,000.

In towns, villages or hamlets the annual fee for every theatre licence is $10.

In villages and rural municipalities a theatre licence may be issued for a period of three months for each of any of the periods ending March 31, June 30, September 30 or December 31 in each year, and the fee for such quarterly licence is one-quarter of the fee payable for an annual licence.

In cities and towns a theatre licence may be issued for a period of six months for each of the periods ending June 30 and December 31 in each year, and the fee payable for each of such periods shall be one-half of the fee payable for an annual licence. Where an annual licence is issued after January 1 in any year and for a period not less than three months, the charge will be such proportion only of the licence fee as the number of days remaining between the date of the licence and December 31 bears to the licence fee for the whole year.

No rebate is allowed if the applicant for a licence has permitted public performances or other entertainments to be held in the theatre for which the licence is required prior to the date of a provincial licence.

In the case of a building only occasionally used as a theatre, or in the case of a special occasions licence, the licence fee is $2 per day, or $10 per week.

The licence fee payable for a drive-in theatre situated within a radius of 10 miles of any city having a population of 10,000 or over is $10 per month, or a maximum of $50 per season; and for a drive-in theate situated within a radius of 10 miles of any city having a population under 10,000, $4 per month, or a maximum of $20 per season.

There is—on film. A lot of companies have very successfully used films to inform, persuade, train, motivate and sell. There are, however, companies that are not aware of all the benefits of film. They need the help of a professional. That's where you take over.

Kodak Canada Ltd. is currently running a campaign in business publications under the theme "Film is good business." It explains the advantage to companies of using films to tell their own stories. There are many companies across Canada that are willing to spend money on films but do not know how to go about it, or who best can do the job.

Now's the time to contact them yourself and sell them on film. Get the picture? Write us for a free "Aid to Sales Kit." Kodak Canada Ltd., 3500 Eglinton Avenue West, Department #4, Toronto, Ontario M6M 1V3.

Join the Winners' Circle

BMI Canada Limited, for 30 years now, has been licensing the works of Canadian writers, composers and music publishers. In all, 8,200 have chosen to affiliate with BMI Canada, making it the largest performing right organization in the country.

Whatever the medium — music for feature films, for documentaries, for television — our affiliates are aiming for the top, and making it.

The list of films our affiliates have scored is much too long to print, but BMI Canada is proud to present those affiliates who have distinguished themselves in recent competitions you'll all recognize:

CANADIAN FILM AWARDS
Best Original Music Score, *La Tête de Normande St. Onge*
music by LEWIS FUREY

ALBERTA FILM FESTIVAL
Best Original Music Score: *Time of the Tarsands*
music by BILL and BEN BOGAARDT
Best Original Music in a Documentary: *Great Grandmother*
music by ANN MORTIFEE

CANADIAN FILM AND TELEVISION ASSOCIATION
Best Original Music Score and Best Sound Recording:
Bachman-Turner Overdrive, music by
RANDY BACHMAN, ROB BACHMAN, BLAIR THORNTON, FRED TURNER

CANADIAN FILM EDITORS GUILD 1976 EFFIGY AWARDS

The OECA is an autonomous provincial Crown corporation which administers educational broadcasting in Ontario. Currently OECA operates an educational television network, TVOntario, with outlets in Toronto (Channel 19), Ottawa (Channel 24), Kitchener (Channel 28), London (Channel 18), Chatham (Channel 59), Windsor (Channel 32). TVOntario also serves part of Northern Ontario via a microwave cable link, and two new stations are due to go on the air next year, Sudbury (Channel 19) and Thunder Bay (Channel 9). The broadcast day extends for 16 hours with programs aimed at preschool, in-school, teachers and adults (open sector) learners. The Authority also operates the Provincial Broadcast Service for two to three hours using the facilities of the CBC, its affiliates and private stations across Ontario, provides a cable package for viewers in communities not reached by the TVOntario network and provides video and audio tapes through its VIPS distribution systems.

The Canada Council, created by an Act of Parliament in 1957 to promote the arts, the humanities and the social sciences, carries out its work mainly through a broad program of fellowships and grants. The Council also shares responsibility for Canada's cultural relations with other countries, and administers the Canadian Commission for Unesco and special programs financed by private donations. The Council reports to Parliament through the Secretary of State and appears before the Standing Committee on Broadcasting, Films and Assistance to the Arts.

Film Production Grants

Applicants must have produced at least one film or have established a professional reputation in the visual arts. Applicants must provide supporting footage in the same millimetre format to be used in the proposed production.

Applicants receiving assistance from other federal film agencies are not eligible for Canada Council grants for the same project.

The maximum amount available for a single film production is $25,000 to cover total or partial production costs. Applicants receiving $15,000 or more may reapply for supplementary funds for a total not exceeding $25,000.

Applicants for amounts exceeding $10,000 must be received by a certain date in order to be considered at the next Canada Council meeting: March 15 for announcement in June; June 15 for announcement in September; September 15 for announcement in December; December 15 for announcement in March.

Objects and Powers

(1) The objects of the Corporation are to foster and promote the development of a feature film industry in Canada, and without limiting the generality of the foregoing, the Corporation may, in furtherance of its objects,

a) invest in individual Canadian feature film productions in return for a share in the proceeds from any such production;

b) make loans to producers of individual Canadian feature film production of Canadian feature films; and

c) advise and assist the producers of Canadian feature films in the distribution of such films and in the administration functions of feature film production.

(2) For the purposes of the CFDC Act, a "Canadian feature film" or "Canadian feature film production" is a feature film or feature film production in respect of which the Corporation has determined,

a) that the completed film will, in the judgment of the Corporation, have a significant Canadian creative, artistic and technical content, and that arrangements have been made to ensure that the copyright in the completed film will be beneficially owned by an individual resident in Canada, by a corporation incorporated under the laws of Canada, or a province, or by any combination of such persons; or

b) that provision has been made for the production of the film under a co-production agreement entered into between Canada and another country.

(3) The Corporation shall not be regarded as a partner in any film production in which it may invest and its liability shall be limited to the amount of its investment in the production.

(4) The Corporation shall, to the greatest possible extent consistent with the performance of its duties under this Act, consult and cooperate with departments, branches and agencies of the Government of Canada and of the governments of the provinces having duties related to, or having aims or objects related to those of the Corporation.

Programs

The Corporation assists Canadian feature film producers by investing up to $250,000 or 50 percent of the budget of a film, whichever amount is less, in projects that meet its criteria on Canadian content, financing, completion and distribution.

The Corporation's Special Investment Program provides an opportunity for filmmakers to demonstrate their talents in a first feature film. The maximum budget for films submitted under this program is $135,000 with the Corporation's participation being 60 percent.

The Corporation assists Canadian distribution companies by supplementing their budgets in the campaigns of Canadian feature films released in Canadian theatres.

The Corporation assists Canadian feature film producers in developing screen plays. Its investment could cover the cost of securing an option on a Canadian novel, retaining an experienced screen writer and certain other expenses relating to the project.

Co-Productions

Since February 1976 the CFDC has been designated by the Secretary of State as administrator of co-production treaties between the Government of Canada and participating countries. Canada has co-production agreements with the United Kingdom, France and Italy. A co-production treaty with West Germany is expected to be finalized by the summer of 1977.

The treaty with France specifies a percentage limit of 80:20 for the proportion of involvement between the majority and minority partners in the co-production. The agreements with the United Kingdom and Italy specify 70:30.

The terms of the co-production require that the artistic and technical input of each country, as well as the financial participation, should reflect its proportionate involvement in the film. Also spelled out in each co-production treaty is the minimum participation of the minority partner, for example, at least one writer, six technicians, one leading performer, etc. The finished film is considered a national film by both countries.

As administrator, the CFDC receives all applications, studies and evaluates them and makes recommendations to the Secretary of State. When a film has been completed, the producer must provide an audited statement of costs and screen the film, after which a final recommendation is made to the minister. All co-production applications are forwarded to Joe Beaubien and Pete Legault at the CFDC's Montreal office.

The Canadian Film Institute was established in 1935. Its aim is to foster and promote the study, appreciation and use of both film and television.

The CFI operates through four different branches. The National Film Library carries almost 10,000 titles of educational, information and entertainment films available for rent. The Information Division is headed by Margaret Britt. It has subject catalogues providing information on most of the films in the Film Library and a Film Title Index of alphabetical listings. Files on additional films bring the reference total to over 120,000 titles. The Publication Division does research work in film, publishing works on Canadian features and filmmakers. Currently its major project is Film Canadiana, a yearbook containing information and statistical data on the year's film production in Canada. The National Film Theatre presents more than 300 films a year both in Ottawa and through a chain of associated National Film Theatres. The NFT also organizes FILMEXPO, the annual film festival held in Ottawa.

A division of Public Archives Canada with exclusive authority for acquisition and conservation of film, videotape and sound recordings in the national interest, and with authority to document and make available such resources for scholarly and cultural purposes.

Initiated as a project of PAC in 1969, the NFA was formally established by Cabinet in January 1976 with a mandate to co-ordinate and consolidate the archival collections of the National Film Board and the Canadian Broadcasting Corporation with those of other Government departments and agencies (including films made with the assistance of the Canadian Film Development Corporation and the Canada Council).

The NFA also incorporates an international collection of films and videotapes important in the art and history of the media, and a library of books (c. 7000), periodicals (c. 350 current titles), information files (c. 80,000), stills (c. 150,000), posters (c. 5000) and scripts (c. 1000). The NFA collaborates with film library and film study organizations across the country to make these resources as accessible as possible, consistent with the observance of rights.

The Ontario Arts Council offers various forms of assistance in film areas to artists in the provinces, and the following brochures are available from its offices:

Film and Photography Grants

Filmmakers may apply for up to $3000 for short, experimental, original 16mm films (full-time students are not eligible). Senior grants up to $10,000 are available to experienced filmmakers. All applications must be supported by a 16mm film.

Writers may apply for up to $3000 to write original, creative material for the screen.

Sponsors of a film festival or seminar may apply for funds to cover fees of visiting filmmakers to participate in workshops and to lead discussion groups, and to cover a portion of administrative costs.

Arts/Education Grants

A filmmaker wishing to work in a school is required to conceive the project, find a school and negotiate a fee. The filmmaker and the school make a joint application for a grant of up to three-quarters of the filmmaker's fee, plus other expenses if the project is more than 75 miles from the filmmaker's home.

A Guide to Grants

This brochure contains useful overall information on the who, what and how of applying for OAC grants.

Pioneer Of The Year Award:
In 1952 the C.P.P. marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre — the Electric of John Schulberg on Cordova Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetakos of Montreal, A.J. Mason of Springhill, Nova Scotia, L. Ernest Ouimet of Montreal, and Fred G. Spencer of Saint John, New Brunswick, were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days. Spencer passed on shortly before the banquet and Schulberg, Ganetakos and Allen have died since.

The next year, the Pioneer of the Year Award was inaugurated. Those who have received it to date are:
1953: John J. Fitzgibbons, Sr., cbe

Motion picture theatres throughout Canada have paid annual licence fees to CAPAC for more than 50 years. The right to charge music performance fees, on behalf of composers, authors and music publishers, has been upheld by the courts.

The licence fees which CAPAC may lawfully sue for or collect must be approved each year by a Board appointed by the Government of Canada. An extract from the Canada Gazette showing the 1977 licence fees is as follows:
Tariff No. 4 Theatres
For a theatre licence covering operations at any time during the year, the annual fee is charged on seating capacity as follows:

Seats	Rates per seat per annum
499 seats and under	10¢
500 to 799 seats	12¢
800 to 1,599 seats	15¢
1,600 seats and over	20¢

The seating capacity of drive-in theatres shall be three times the maximum number of automobiles which may be accommodated at any one time.

Theatres operating three days or less per week shall pay one-half of the above rates.

For theatres operating for less than 12 months in each year, the fee payable shall be reduced by 1/12th for each full month during the year in which no operations occur.

Minimum fee — $10.

A licence obtained under this item of the tariff shall not be deemed to authorize any concert or stage show when the exhibition of one or more films is not an integral part of the program. Concerts or stage shows in theatres not coming within the aforesaid classification shall be licensed under item No. 11 of the tariff.

Aims and Objectives

The Council of Canadian Filmmakers is an umbrella organization which represents, through its individual and organization members, 10,000 film directors, writers, actors, technicians, and production personnel in the English Canadian film industry.

CCFM was formed in March, 1973 in response to the growing problems of the film industry. Speaking on behalf of its members, CCFM has presented numerous briefs and interventions to all three levels of government in Canada, and has spoken out in public and private forums on the need to improve the situation of the English Canadian film industry.

In the past year, CCFM has continued to press for legislated quota and levy systems to ensure that Canadian films have reasonable access to Canadian theatres, and to ensure that a reasonable percentage of Canadian box office earnings are returned to Canadian production. The Council has also undertaken extensive research in the area of Pay-TV.

The objective of the Council of Canadian Filmmakers is to promote the development of an indigenous English Canadian film industry by: (1) informing government and the public of the situation in the film industry in English Canada; (2) presenting a unified industry voice in negotiations with government, in public forums and in the press; (3) lobbying for the conditions which will make an indigenous film industry viable in Canada.

The Heart Award

In 1947 the late Peter Campbell, then president of the Maple Leaf Baseball Club, was singled out by Variety for his great fund raising efforts and presented with a gift to symbolize it. The following year Conn Smythe, president of the Maple Leaf Baseball Club was similarly honoured. It was then decided to make an annual award to the Barker who had made the most outstanding contribution to the work of Variety each year. This was to be known as the Heart Award.

The recipients since its inception are: John J. Fitzgibbons Sr., 1949; James Cameron, 1950; Wm. Summerville Jr., 1951; Ernest M. Rawley, 1952; George Altman, 1953; Monty Hall, 1954; Dan Krendel, 1955; Jim Nairn, 1956; R.W. Bolstad, 1957; J.A. Troyer, 1958; Herb Allen, 1959; Bert Brown, 1960; J.J. Fitzgibbons Jr., 1961; Ed DeRocher, 1962; Hye Bossin, 1963; Frank Strean, 1964; Andrew Rouse, 1965; Sam Shopsowitz, 1966; Morris Stein, 1967; Robert Hall, 1968; N.A. Taylor, 1969; Alex E. Stewart, 1970; Stan Sobol, 1971; Lionel Ginsler, 1972; Harvey Dobbs, 1973; Len Bishop, 1974; Doug Wells, 1975; Robert Lester, 1976.

Tent 28 is well-represented on the International Board of Directors. Robert R. Hall Q.C. is International Counsellor and Sam Shopsowitz and Frank Strean are International Ambassadors.

Variety Village

Officially opened in 1949, Variety Village functioned as a training school and residence for physically handicapped children from Ontario. In 1974, an electronic limb centre was added, which specializes in the research development and production of electronic limbs. The 1977 Chief Barker and Crew are seriously engaged in entertaining the renewal of Variety Village in a much expanded fashion for the benefit of handicapped youngsters. Increased facilities will be required in the area of housing and medical treatment.

Variety Bike-A-Thon

The greater Toronto Variety Club Bike-A-Thon is the major annual fund raising event of Tent 28. Portions of the proceeds go to Variety Village, the Variety Club cardiac cathetarization unit of the Hospital for Sick Children, Bloorview Children's Hospital, Mount Sinai Hospital, Ontario Society for Crippled Children, the seven Sunshine Vans which provide transportation for handicapped youngsters, and many more needy causes.

The 23rd annual convention was held in San Francisco in 1976. The Toronto chapter won the Convention Attendance Award for the greatest number of members travelling the longest distance to the convention site.

With the closing of the Will Rogers Hospital and the building within the next two years of the Will Rogers Institute in Valhalla, N.Y., the convention elected to place its yearly allotment of $2000 plus an extra donation of $500 into an interest-bearing account. The accumulated sum will be presented to the new Institute and used towards the purchase of equipment.

The 1977 convention is in Memphis, and the 25th Silver Jubilee in 1978 will be celebrated in Dallas, where WOMPI originated.

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 4,000 motion picture craftsmen.

Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.

It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.

The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

PURPOSES

The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders for cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster educational activities between the public and the film industry.

HISTORY

The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.

The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theater, Margaret Herrick Library, Administrative and Publications offices.

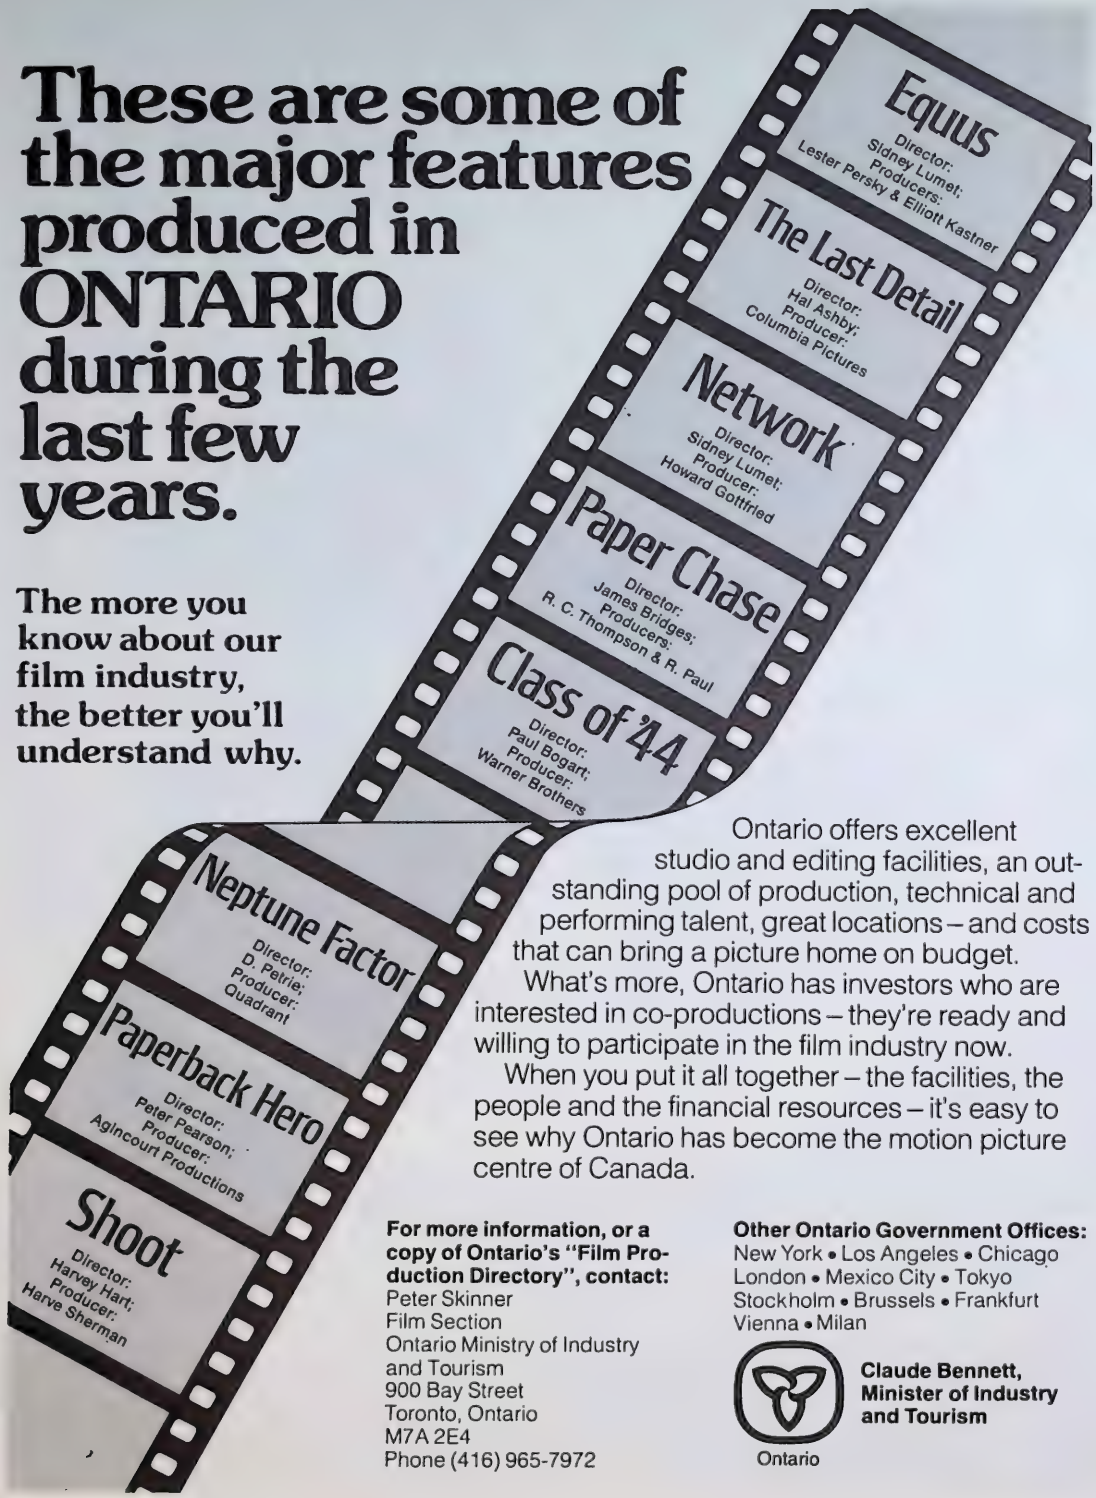
These are some of the major features produced in ONTARIO during the last few years.

The more you know about our film industry, the better you'll understand why.



Ontario offers excellent studio and editing facilities, an outstanding pool of production, technical and performing talent, great locations – and costs that can bring a picture home on budget.

What's more, Ontario has investors who are interested in co-productions – they're ready and willing to participate in the film industry now.

When you put it all together – the facilities, the people and the financial resources – it's easy to see why Ontario has become the motion picture centre of Canada.

The Canadian Film Editors Guild was established in 1967 and incorporated in 1968.

Aims

To advance the art and craft of the film editing profession.

To promote and foster high standards of film editing by establishing a clearing house of information for the film industry.

To bring into close alliance all film editors who desire to advance the prestige and dignity of film editing.

To establish close liaison with producers, directors, laboratories, re-recording studios and any other groups or organizations concerned with film editing.

Objectives

The Guild shall . . .

a) adopt and encourage the observance of a code of ethics for its members.

b) endeavour to promote understanding of film editing functions amongst all film crafts and the general public.

c) award recognition for film editing craftsmanship to those members of the Guild so qualified and authorize the use of the letters 'cfe' after the names of full members on screen credits or publicity of any kind.

d) make available to producers a current list of qualified and experienced film editors.

e) investigate and establish standards and procedures applicable to all film editing functions in liaison with others so concerned.

f) actively engage in the selection and presentation of awards where recognition is given for film editing excellence.

g) present its own awards annually.

h) arrange presentations by prominent members of the film industry to give lectures and demonstrations of established and new techniques for the benefit of its members.

i) endeavour to obtain and screen at regular intervals films portraying film editing excellence and new techniques for the benefit of its members.

j) promote liaison and exchange of information with similar organizations throughout the world.

Honorary Life Members

Any persons (not necessarily film editors) deemed worthy of such membership by unanimous approval of the National Executive. Any person honored with such membership may, if they wish, use 'cfe' (honorary) after their names on suitable occasions. Honorary Life Members, who have previously been members, are entitled to vote in the business of the Guild.

Members

Recognized film and sound editors with at least five years professional film editing experience in a full-time capacity. Members are entitled to use 'cfe' after their name on screen credits and publicity. (Sound editors may not use 'cfe' when picture editing unless otherwise qualified, as above.) Associates may qualify for 'member' status prior to five years, provided they are able to convince the current Executive of suitable abilities. Members who retire from the Guild, for whatever reason, are not entitled to use 'cfe'.

Associates

Recognized film and sound editors who are not eligible for 'member' status but are currently engaged in full-time professional film editing. Negative cutters may also qualify for associate status providing they can prove at least five years recent professional experience.

Affiliates

Any person directly concerned, in any capacity, with professional film editing. Included are assistant film editors, negative cutters, trainees, etc.

Corporate Affiliates

Companies or organizations concerned with any aspect of professional film editing (i.e. production companies, recording and re-recording studios, optical effects houses, manufacturers, suppliers, etc.). Also, a courtesy title accorded regular advertisers in "The Canadian Film Editor" magazine.

The Canadian Film Editor

. . . is a magazine published by the Canadian Film Editors Guild on behalf of members and the film industry as a whole. Usually, at least four issues per year are published and a copy is sent to each member with additional complimentary copies placed in various laboratories, sound studios and optical houses for general interest. Copies are also available on subscription.

The *Direction générale du cinéma et de l'audiovisuel* (DGCA) is a government agency that comes under the *Ministère des Communications du Québec.* It co-ordinates the production and promotion of audiovisual material on behalf of the various departments of the Government of Québec, as well as promoting Québec cinema as a whole. The DGCA is responsible for acquiring, preserving and distributing government and Québec productions, or productions from elsewhere which are of interest to Québec.

Government productions, generally documentary films and audiovisual material, are on sale at the DGCA.

CANADIAN SOCIETY OF CINEMATOGRAPHERS
22 Front St. W.
Toronto, Ont. M5J 1C4
(416) 363-4321

The Canadian Society of Cinematographers was founded in 1957 by a group of veteran cinematographers from Toronto, Montreal and Ottawa. It is the only organization in Canada that represents the interests of cinematographers exclusively.

Its aims are:

1. To promote and foster cinematography in Canada.
2. To develop and promote the interests of Canadian cinematographers.
3. To provide membership with technical and other information for the improvement of their knowledge, work and status.
4. To function towards the achievement of these purposes free from all partisan political, labour-management and other issues not related to these stated aims.

For over eighteen years, more than 240 cinematographers and assistant cameramen have become members of the Canadian Society of Cinematographers. The Society founded the magazine "Canadian Cinematography" which later became "Cinema Canada" and now, published independently, is considered Canada's foremost film magazine.

Members of the Society have always been very active participants at meetings of the Canadian Film Awards, the Canadian Film Development Corporation, the Society of Film Makers and other groups in the film community.

Through meetings held on the first Monday of each month, September through May, the executive strives to have interesting and informative discussions on current and new equipment, new techniques and problems that may affect professional cinematographers.

Several members are instructors at universities and colleges across Canada and the Society periodically organizes special classes for assistant cameramen and others interested in learning the essentials of cinematography.

By active and financial support to the CSC, professional cinematographers are able to make their collective voices heard when problems arise in the film industry and possibly find mutually acceptable remedy.

Each year the CSC holds an awards function and trophies are presented, to members only, in the following categories:

Feature/TV Drama	CSC Award
Documentary	CSC Award
TV Commercials	CSC Award
News	Roy Tash Award

In addition, and not necessarily each year, the Bill Hilson Award (a miniature Arriflex) is presented to a member of the CSC who has performed outstanding service to the Society or has made a special contribution to the art of cinematography. Also, members have won international recognition and awards including the coveted 'Oscar.'

MEMBERSHIP

Membership in the CSC is divided into the following categories:

Affiliate Membership

The applicant must be professionally employed as an assistant cameraman or camera operator or be active in a field directly related to cinematography such as teaching or studying cinematography at a recognized Canadian institution of learning. Affiliate members have no voting privileges and are not permitted to serve on the board of directors. They have the right, and are encouraged to attend, all membership meetings and may serve on committees.

Associate Membership

The applicant must be professionally employed as a cinematographer or camera operator for a period of at least three years. Teachers of cinematography may be considered for this category provided they have sufficient previous practical experience. Affiliate applicants must be in good standing.

Full Membership

The applicant must be professionally employed as a cinematographer for a period of at least ten years and must also be fully qualified to assume the responsibilities of Director of Photography. Alternatively, the applicant must have to his credit, exceptional achievement as a cinematographer. Only full members are entitled to use the initials 'CSC' after their names on screen credits, correspondence and stationery. Full membership is not automatically acquired after ten years nor does the ten-year limit always apply. Full membership is granted only after the membership committee has screened an applicant's film examples which must show an ability to light interiors and exhibit a high standard of excellence. Full membership applications are reviewed once annually and are granted only upon unanimous approval of the board of directors. Associate applicants must be in good standing.

Honorary Membership

Honorary membership may be awarded by the membership committee to Canadian laymen who have promoted, or are promoting, through their efforts, the interests of cinematography in Canada. Honorary members are not active, as such, in the regular business of the Society.

Life Membership

Life membership is awarded by the board of directors to members who have retired from active cinematography and who have been particularly valuable to the Society in the past. Membership is retained without payment of dues.

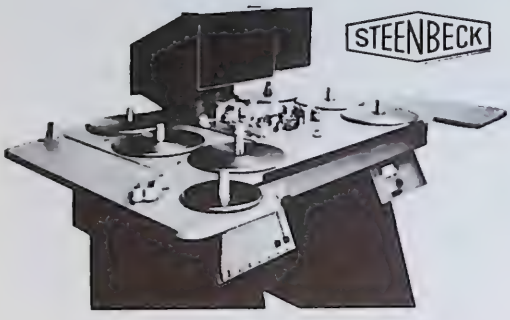
Cut it short



Ideal for those small spaces... this table is only 43" wide. Yet it's a complete 16 mm editing machine with 6-plates consisting of 2 sound and 1 picture track. This machine also offers edge or centre track heads. 12-watt amplifier and speaker. Counter in footage or minute/seconds. Or choose the model with table top extensions for added convenience. It has motor driven rewinder for winding intermediate cuts (up to 500' approx.) and an additional sound head for 16 mm mag. film for manual operation. So when you have to cut 16 mm and you don't have a lot of space... cut it short. Choose a Steenbeck ST1900... the complete editing machine.

Six Shorts for Spring and Summer from

The National Film Board of Canada

Academy Award Nominee (Best Animation)

The Street
In soft, simple washes of watercolor and ink, film-maker Caroline Leaf captures the reactions of a St. Urbain Street family to a dying grandmother. From a book by renowned Montreal author Mordecai Richler. *Awards: Chicago, San Francisco, Toronto, Ottawa*

The Lion and the Mouse
The whimsical cut-outs of celebrated animator Evelyn Lambart bring new charm to this fable by Aesop. Told without words, the story concerns a tiny mouse who, in return for a past favor, frees a mighty lion from a hunter's trap.

Maud Lewis: A World Without Shadows
The world that Maud Lewis created with her paint brushes is one of memorable whimsy – of orchards, oxen, fishermen and flowers. This gentle voyage leads into the tiny house that she decorated entirely with her work and into the peaceful world that she created.

The Mad Canadian
For the man who rockets a car up a ramp and flys it over a formidable barrier of parked cars, work is a risk that takes more than the desire to earn a living. This tense, tight close-up of stunt man Ken Carter on the stock-car racing track shows what that extra 'something' is.

The Other World
Armed with camera and microscope, this fascinating documentary makes close contact with the elusive creatures of the freshwater world. Here, where movement undulates and sound is muffled, it studies the delicate interplay of lifeforms along an ecological chain that begins with micro-organisms and ends with man.

The Art of Eating
A rare feast with one of the oldest, most exclusive and most knowledgeable dining clubs in Quebec – if not in the whole of North America. The preparation and presentation of all twelve courses, including the appropriate champagnes and vintage wines, must be seen to be believed.

A LIST OF MOTION-PICTURE TECHNICAL TERMS IN FIVE LANGUAGES

Initiated by Carlos Connio Santini

Standardization of international usage in motion-picture language may not be possible, but mutual understanding of the technical terms used in the industry, in those language areas where its principal activities are carried on, is a worthy goal. The basis for this list was contributed by the late Mr. Santini with no claim to its being definitive; in compiling it, however, he tried invariably to choose the term most generally accepted in each language. Readers' comments and additions to the current list will be welcomed.
